Assembly Preparation

Before Beginning:

Unpack all hardware bags and components to ensure you have all parts. Take note of bolt hardware size differences and components that may have directional labels (Example: TOP or FRONT).

Depending on your furniture product, foam, packing dust, or residual film or finish may be present on the components. This is normal and can be wiped clean using a non-colored, lint-free dry cloth.

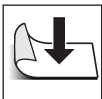

Read the assembly instructions, cover-to-cover. Save any **Care and Maintenance** instructions pages for after the assembly has been completed.

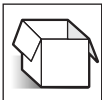

It is always recommended to have 2 adults on hand for assembly.

Do not assemble on hard, abrasive flooring or carpeted surfaces that can damage or get caught in the components during assembly.

Assemble on a clean non-marring surface (such as the product's packing foam).

Do not discard any packaging until the product has been fully assembled.

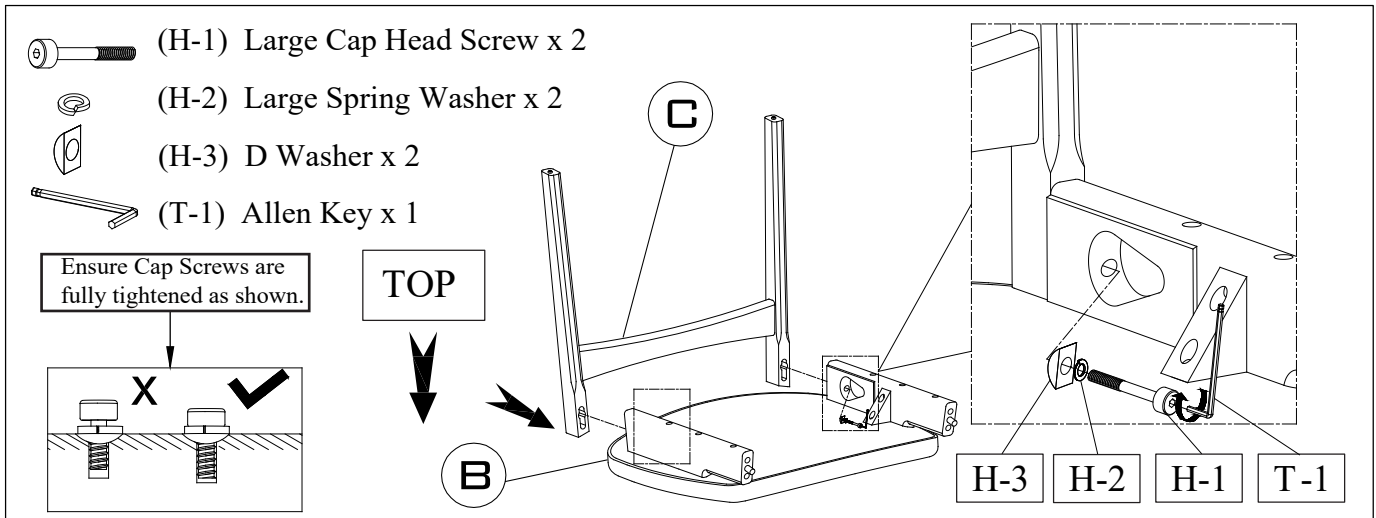

In case of missing parts, please contact your nearest World Market store or call our customer service call center at 1-877-967-5362.

WARNING: Small parts are a choking hazard. Adult supervision is required before, during, and after assembly.

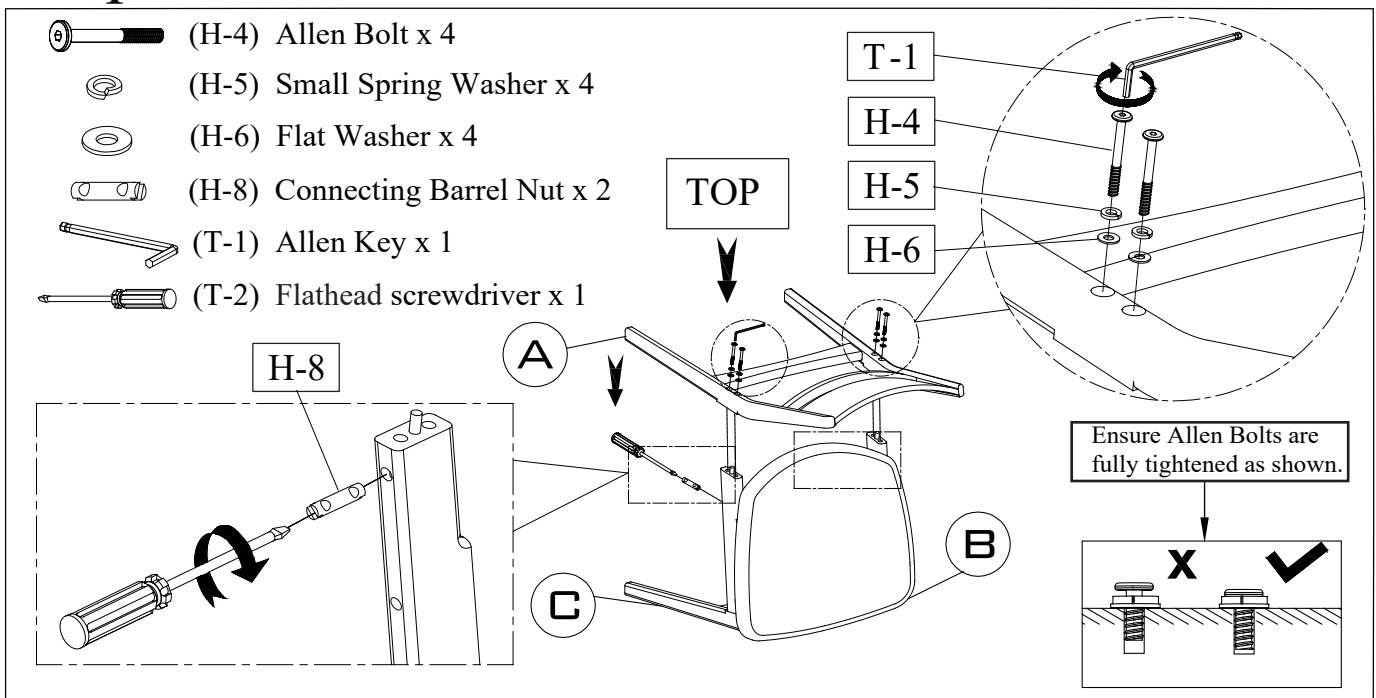

Assembly Steps

Step 1

Position Seat (B) upside down onto a padded, no-marring surface. Position Front Frames (C) onto the front of Seat (B) as shown. Insert Large Cap Head Screw (H-1), Large Spring Washer (H-2) and D Washer (H-3), through the holes in each Seat (B)'s frame into the receiving holes on the Front Frame (C), arrange the hardware in the order as shown. Do not yet fully tighten Bolts.

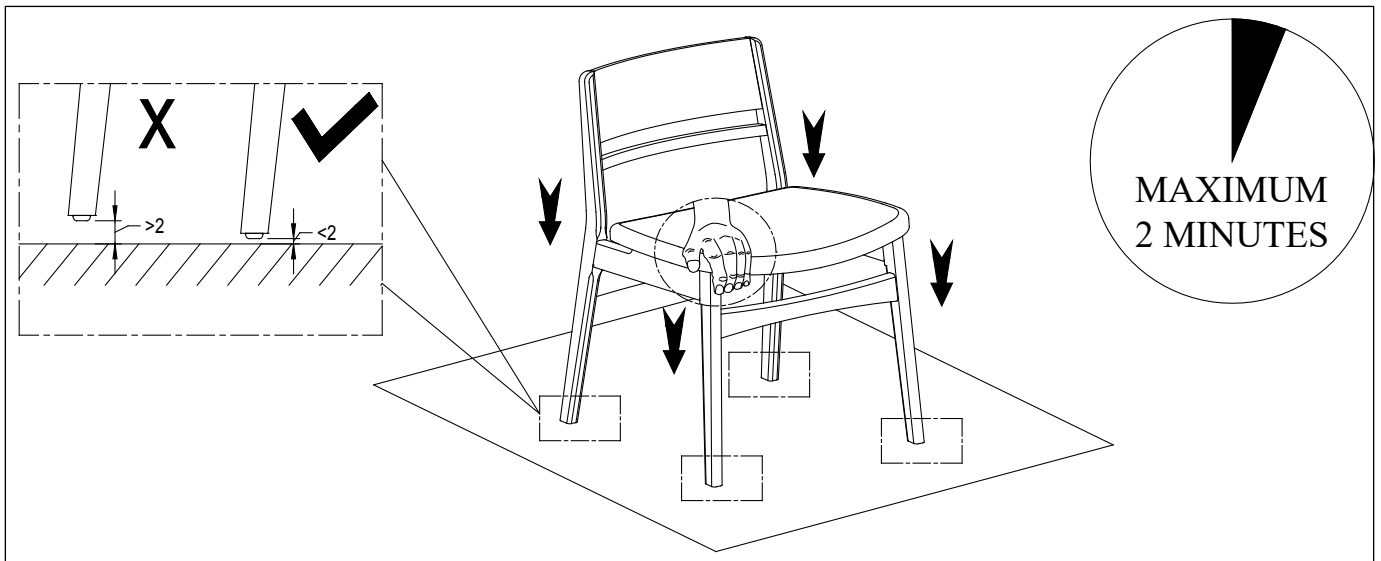

Step 2

Place the partial assembly from Step 1 so that Seat (B) and Front Frame (C) are facing down towards the ground on a padded, non-marring surface. Next, place Back Rest (A) down into position as shown onto the alignment dowel on each wooden rail under Seat (B). Insert a Connecting Barrel Nut (H-8) through the bottom hole on each wooden rail under Seat (B) as shown in the bottom left detail illustration above. There are two threaded holes in the Connecting Barrel Nut (H-8) that should align with the corresponding holes of the Back Rest (A). Insert an Allen Bolt (H-4), Small Spring Washer (H-5), and Flat Washer (H-6) into each of those two holes of Back Rest (A) as shown, making sure the bolt engages the threads on Connecting Barrel Nut (H-8). It may help to hold the position of Connecting Barrel Nut (H-8) using a Flathead screwdriver (T-2 not included) while you hand thread the bolts. Engage the bolts by hand first, and then tighten them using Allen Key (T-1).

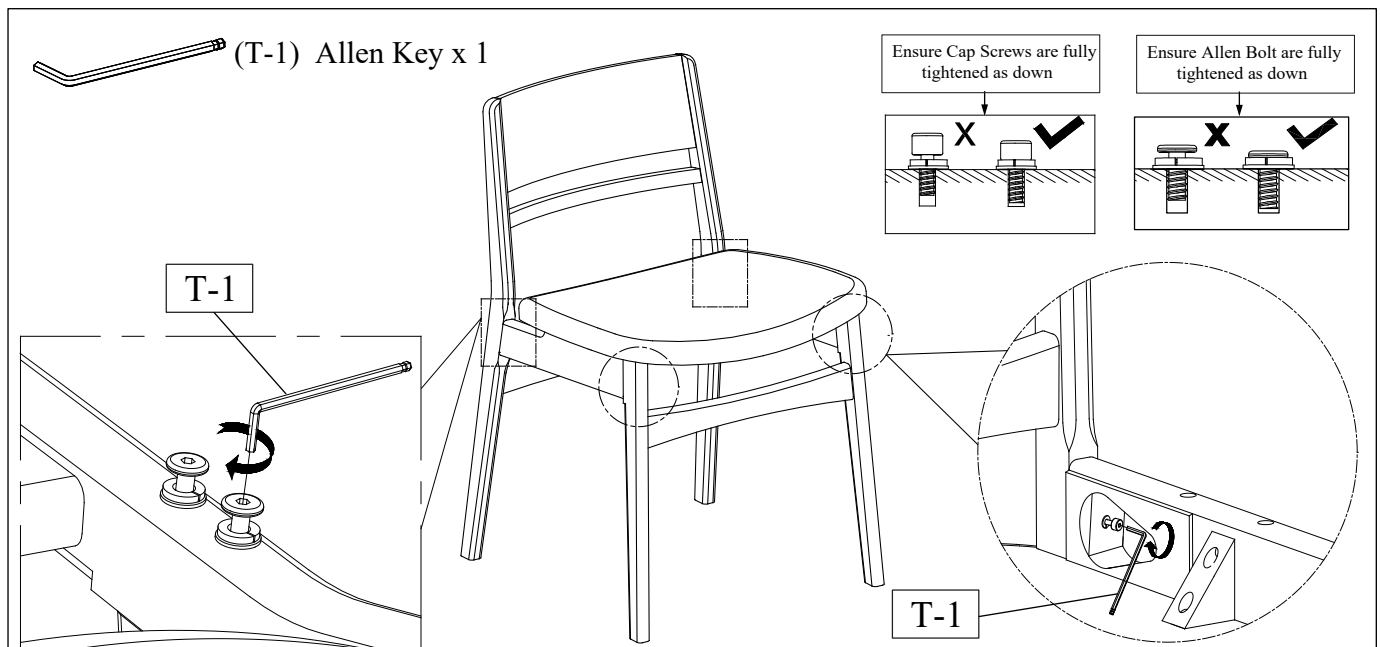

Assembly Steps

Step 3

Carefully turn the assembly from Step 2 upright as shown. To ensure that all four legs of the chair rest evenly on the floor surface, spend 1-2 minutes applying moderate downward pressure to the chair seat deck as illustrated. Press down firmly at each corner of the seat using both hands, starting at the front of the chair and then moving to the back corners. Repeat the procedure as needed until verifying that the assembly has settled and any gaps between the legs and floor have been minimized. NOTE: Small (<2 mm) gaps may still exist even after performing this step. This is normal production variance and does not impact the use of the chair once assembly has been completed.

Step 4

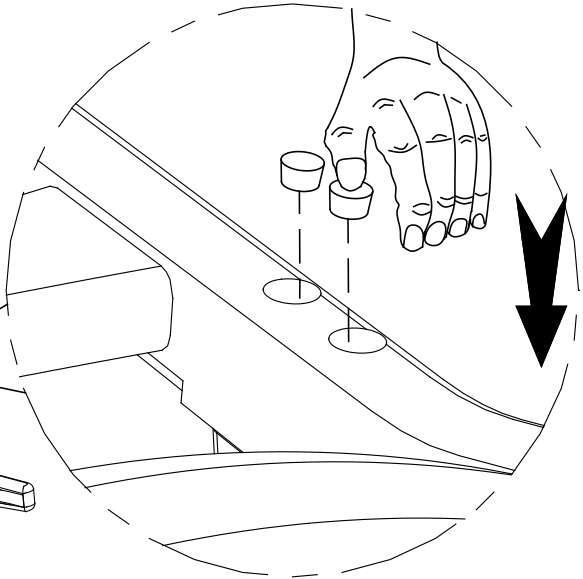

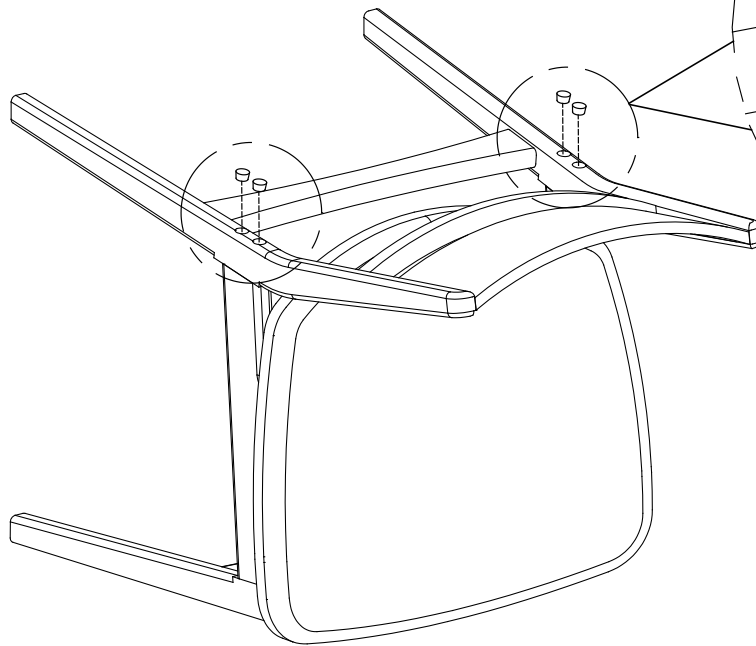

After verifying that all four legs have settled properly (in Step 3), fully tighten all bolts and cap screws from Step 1-2 using Allen Key (T-1). DO NOT use a power drill or overtighten any of the bolt hardware as this may damage the assembly.

Assembly Steps

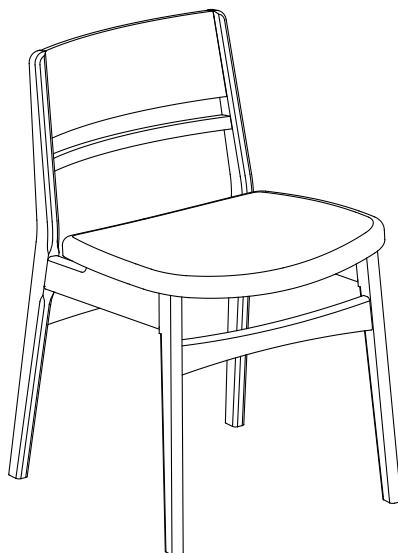

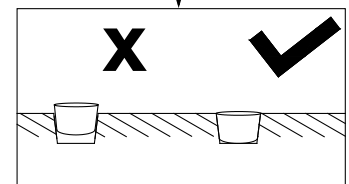

Step 5

(H-7) Wooden Plug x 4+1(Extra)

Ensure Wooden Plugs are tightly attached as down

Use your hand to press Wooden Plug (H-7) into the holes in Back Rest as shown. One extra Wooden Plug (H-7) is provided. Assembly is now complete and the product is ready for use. NOTE: Hardware may loosen over time. Periodically check that all connections remain tight and adjust as needed.
